- Board of Directors, NEST, Inc. 2000 to present.

Why do you wish to serve as a Director of Access Tucson?

Of all the Agencies, Commissions, Committee and Groups I have ever given my time to, Access Tucson is closest to my heart. Without Freedom of Speech, all the other things do not matter, cannot matter. The melding of Channel 12 and Access Tucson into our building is the most important element we have faced yet and believe I have knowledge and abilities which will aid in that process.

What expertise or special qualifications do you possess which you feel would be important to Access Tucson?

I believe my experience with political bodies, municipal, Boards Committees and Commissions, and my networking with other non-profit organizations in and around Tucson. I have a great deal of knowledge about the Americans /Arizonans with Disabilities Act at my fingertips and use it constantly for other organizations. I would be happy to share this information with the Access Tucson Board of Directors. I am also looking forward to finding new and exciting ways to use the equipment and spaces at 124 East Broadway for the current Members, Producers, and the community at large. I believe there are fresh, avant-garde technologies out there, just waiting for Access Tucson. I can't wait to see the next step, I'd like to part of the leadership in that bright future.
